## Product Guide

Special Advertising Section

**REVIEW**<sup>®</sup>  
of Ophthalmology

### Dear Doctor,

Review of Ophthalmology is pleased to offer you this preview of many exciting new products now available in the ophthalmic marketplace. Here, you'll learn about innovative new medications, diagnostic instruments, corrective lens options, in-office laboratory equipment and many other products. There are two ways to obtain more information on a particular product:

1. Go to [www.reviewofophthalmology.com](http://www.reviewofophthalmology.com), click Supplements, Product Guide digital edition, and then follow the prompts.
2. Circle the corresponding number on the enclosed reader service card for each product of interest. Fill in your name and address, and return the postage-paid card to us. Educational materials will be sent directly to you by the individual companies. Thank you for your interest and support!

**HELP HEAL YOUR PATIENTS' DRY EYES.**

**SAFE FOR CONTACTS**

**Refresh REPAIR**

Repairs and Protects the Eye's Surface

REFRESH<sup>®</sup> REPAIR is the first and only artificial tear in the U.S. with CMC, HA,\* and Osmoprotectants.

## Product Guide

### Phoroptor® VRx

#### Digital Refraction System

**A premium refraction experience from the most advanced Phoroptor® ever.**

Featuring the thinnest, most compact design, incredibly fast lens exchanges, motorized prisms, split cylinder lenses, and ultra-quiet operation, **Phoroptor® VRx** sets new standards in refraction. The ergonomic keypad features a multi-function control knob with unmatched feel and versatility, while the intuitive touch-screen interface has all the pre-programmed and programmable tests you'll need.

Phoroptor® VRx boasts effortless integration with EMR systems, and unlike other digital refraction systems, is compatible with a comprehensive list of pre-test and acuity devices from both Reichert® and other leading manufacturers.

Designed and assembled in the USA

### Ultramatic RX Master™

#### Phoroptor®

**Since 1921, the unmistakable feel of quality.**

The original and world's finest refracting instrument. Phoroptor® continues to be the industry standard after more than 90 years, offering its renowned mechanical quality and craftsmanship, optical quality, accuracy, and reliability.

Reichert **Ultramatic RX Master™ Phoroptor®** and **Ultramatic RX Master™ Illuminated Phoroptor®** are the only refracting instruments completely designed and manufactured in the United States. Each Phoroptor® is made of 1,000 pieces, assembled by hand in our Buffalo, New York factory.

Ultramatic RX Master™ Illuminated Phoroptor® features a patented, maintenance-free, cool-running, energy-efficient LED design.

### ClearChart® 4

#### Digital Acuity Systems

**Pixel-perfect and purpose-built.**

The all-new family of ClearChart® Digital Acuity Systems are elegant, all-in-one, simple-to-use, and uniquely designed to meet all of your acuity testing needs with a wide selection of optotypes, and other special test charts.

The **ClearChart® 4** Digital Acuity System, **ClearChart® 4X** Enhanced Digital Acuity System, and **ClearChart® 4P** Polarized Digital Acuity System all feature a new 24 inch, high resolution, LED backlit display that are lightweight, cool running and long-lasting. The intuitive user interface provides the best user experience of any digital acuity chart.

### SightChek™

#### Digital Phoroptor®

**Combining technology, simplicity, and value.**

Increase efficiency and patient throughput with the speed and simplicity of **SightChek™**. Designed to combine technology and value, SightChek™ enables you to bring the power of digital refraction into your practice at an affordable price.

For over 90 years, Phoroptor® has been at the heart of your exam lane. Trust Reichert®, The Phoroptor® Company, for the best possible refraction experience.

### LensChek™ Pro and LensChek™ Plus

#### Digital Lensometers

**Combining technology, simplicity, and value.**

The all-new **LensChek™ Pro** Digital Lensometer® with PD+UV and **LensChek™ Plus** Digital Lensometer® combine technology with simplicity at the core of your exam.

The new, compact, modern design and intuitive user interface offers the easiest lensmeter user experience available. For example, when the target is aligned with the correct optical center, readings can be automatically "locked-in" ensuring fast, repeatable, and reliable lens measurement. Both devices feature a brilliant 5.7 inch color LCD display.

LensChek™ Pro additionally features UV transmittance and PD measurement.

### OptoChek™ Plus

#### Auto Refractor + Keratometer

**Combining technology, simplicity, and value.**

The all-new **OptoChek™ Plus** Auto Refractor + Keratometer, combines technology with simplicity at the core of your exam. The compact, modern design, and intuitive user interface of the OptoChek™ Plus offers the easiest user experience available for measuring objective spherical and cylindrical refractive errors as well as keratometry.

An innovative reliability index gives you confidence in obtained readings. Scotopic Pupil Size and Photopic Pupil Size modes adjust illumination to accommodate different lighting conditions. OptoChek™ Plus features a brilliant 5.7 inch color, touch LCD display, data output options, and a measurement range of Sphere: -30 D to +22 D, Cylinder: 0 D to ±10 D, Axis: 0° to 180°.

## Product Guide

### Ocular Response Analyzer® G3

**Corneal Hysteresis: A more objective predictor of glaucoma progression.**

**Provide a more confident glaucoma risk assessment and a more personalized treatment approach.**

Ocular Response Analyzer® is the only device that measures Corneal Hysteresis, a superior predictor of glaucoma progression. Corneal Hysteresis has consistently shown to be predictive of, or strongly associated with, glaucoma progression, and more powerfully so, than key indicators such as IOP and CCT.

**CPT® Code 92145 for Corneal Hysteresis**

Designed and assembled in the USA  Circle No. 23

### Reichert® 7CR and Reichert® 7

Non-Contact Tonometers

**The most advanced and the easiest to use.**

In 1972, Reichert® invented the non-contact tonometer (NCT), and after 45 years continues to offer the most accurate, trusted, and complete line of NCTs.

From the effortless one-button simplicity of Reichert® 7 to the clinically advanced Reichert® 7CR, which provides Corneal Compensated IOP (IOPcc), Reichert has a non-contact tonometer that suits your needs.

### Tono-Pen®

Handheld Tonometers

**Reichert® Tono-Pen® has been the trusted choice of clinicians for over 30 years.**

Introducing Tono-Pen AVIA® applanation tonometer now with Quick-Tap™ Measurement Mode. The same ready-to-use, calibration-free, and accurate operation – now with more confidence in fewer measurements – making Tono-Pen AVIA® the most advanced Tono-Pen® yet.

Tono-Pen® is less sensitive to corneal centration, ensuring fast and accurate IOP measurements with minimal training.

Protect your Tono-Pen and patients with genuine, FDA cleared Reichert® Ocu-Film® + Tip Covers.

## MACUHEALTH WITH LMZ<sup>3</sup> Circle No. 61

Containing all three critical carotenoids in our patented 10:10:2 formula, consisting of meso-zeaxanthin (10mg), lutein (10mg) and zeaxanthin (2mg), MacuHealth with LMZ<sup>3</sup> is proven to quickly and effectively rebuild macular pigment.

A healthy macular pigment reduces oxidative stress, which helps protect photoreceptor cells from damage and reduces the risk of blindness later in life.

Supplementation with MacuHealth with LMZ<sup>3</sup> will help enhance visual performance by reducing glare and improving contrast.

## COMPUTERIZED READING ACUITY TEST – A KEY QUALITY OF LIFE FUNCTIONAL MEASURE

Whether you are assessing a patient's response to a refractive technology or a disease therapy, reading speed and reading acuity can provide valuable information about the quality of their vision. Remember! Reading acuity and Visual Acuity can be very different.

- Easy, economical and fast testing
- Ability to present sentences as small as 20/16 at 40cm
- Multiple languages
- Adjustable contrast and luminance
- 3 distance algorithms – near (40cm), computer (66cm) and intermediate (80cm)
- Randomized sentences to prevent familiarization

## Product Guide

### i.TERMINAL® 2 & i.TERMINAL® MOBILE BY ZEISS

i.Terminal 2 enables a premium patient experience.

- 60% faster than using manual measuring procedures
- 84% more accurate than a manual process.

Mobile centration is the modern way to capture your patient's individual fitting parameters.

- Can be used with any type of frame including large-sized sunglasses and sports frames
- Can integrate with EMR systems

### i.PROFILER<sup>plus</sup>® BY ZEISS

Ocular wavefront aberrometer, corneal topographer, autorefractor, and keratometer – all in one compact instrument.

- Includes i.Scription® by ZEISS software – Rx technology with ZEISS customized lenses
- Fully automated
- Binocular measurement in less than one minute
- Ocular wavefront measurement up to 7<sup>th</sup> order Zernike aberration
- Integration EMR and ZEISS Digital Refraction Systems
- Optional ATLAS® Review Software for advanced corneal topography

### VISULENS® 500 FROM ZEISS

VISULENS 500 is a straightforward, easy-to-use automated lensmeter designed to speed up your workflow.

- Advanced UV transmission measurement system using four different wavelengths (365, 375, 395, 405 nm).
- Includes a preloaded pen-type marking system
- Integrated green LED (no need to adjust Abbe number)
- Integration with EMR and ZEISS Digital Refraction Systems

### VISUREF® 100 FROM ZEISS

VISUREF 100 – a straightforward, easy-to-use Autorefractor / Keratometer provides accurate and reliable data for your daily practice routines.

- Motorized chin rest
- Auto-trigger function and integrated thermal printer
- Integration with EMR and ZEISS Digital Refraction Systems
- Fogging to reduce the effects of accommodation
- Refraction measurements of patients with implanted IOLs

### VISUSCOUT® 500 FROM ZEISS

With lightweight and compact design, the ZEISS VISUSCOUT 100 allows simple retinal imaging and great flexibility when and wherever the need arises.

- 40° FoV color and red-free images, autofocus
- 9x internal fixation targets
- Battery-powered
- Wi-Fi and USB connectivity, optional DICOM
- Highly portable, lightweight device

### VISUPLAN® 500 FROM ZEISS

VISUPLAN 500 makes this IOP examination very easy precise.

- Air-puff principle
- Fully automated with touch screen operation
- Easy to use and delegate to practice staff
- Fast measurement for easy and early identification of high-risk IOP patients even during pretest exams
- No need for anesthetics or fluorescein
- Integration with EMR

## QUANTIFEYE® MPS II

**The Industry-Standard MPOD Measurement and Ocular Assessment Instrument.**

Circle No. 73

The QuantifEye MPS II measures macular pigment optical density (MPOD), an important factor in evaluating macular health as part of a larger, more comprehensive retinal exam.

This instrument offers:

- Unsurpassed patient and technician usability with Data Quality Index (DQI)
- Significantly faster testing time in the lane with enhanced features and user-interface
- Intuitive workflow with multiple records

Contact us today for more information and to find out how you can get a 60-day, risk-free evaluation for your practice.

## Product Guide

### NEW MARCO ULTRA M SERIES OF SLIT LAMPS

The new Marco **Ultra M Series of Slit Lamps** not only introduces a new era of diagnostic observation, but completely changes the boundaries of conventional slit lamp design and performance. The **Ultra M Series** is an inspiring orchestration of the original Ultra Optics pedigree, highlighted by an elegant and intelligent design, progressive engineering, and functional flexibility. The new **Ultra M Series** from Marco truly represents the next generation slit lamp.

Other stand-out features include:

- Single-element, high-luminance LED illumination
- Patent-pending, built-in background illumination system
- Larger, 14 mm continuously variable aperture
- Fully integrated, low-voltage electronics conceals all hardware
- Expanded Patient chin rest access

Circle No. 77

Marco ▲ (800) 874-5274  
www.marco.com

### ION IMAGING™ ANTERIOR SEGMENT SLIT LAMP IMAGING SYSTEM

Marco has redefined slit lamp imaging by combining a new intra-optics beam-splitter/camera adapter with the tremendous computing and imaging power of Apple-Technology. Together they create a highly sophisticated imaging system that emphasizes image quality, simplicity and efficiency. ION combines all of the bulky components (digital camera, adapter, computer, monitor, multiple cables, keyboard, mouse, etc.) of the traditional photo slit lamp, into one sleek, attractive all-in-one device, all at your fingertips, never having to leave the slit lamp. The “on-board” display utilizing our HIPAA compliant App allowing the user to export images to the Cloud or LAN for EMR integration. A system that you will want in every exam room, not missing the opportunity to capture, integrate and educate every diagnosis.

Circle No. 78

Marco ▲ (800) 874-5274  
www.marco.com

### OPD-SCAN III WAVEFRONT ABERROMETRY

Beyond the ability to gather an autorefractometry, keratometry, pupillometry, corneal topography and wavefront aberrometry in ~10 seconds per eye, the OPD-Scan III adds over 20 diagnostic features never before integrated in one workstation.

- Angle Alpha and Kappa for multi-focal implants
- Retro illumination image displays cataracts, post-op toric IOL alignment, haptics, etc...
- SA of Cornea for Aspheric IOL selection
- Average Pupil Power for post LASIK calculations (APP on ASCRS IOL calculator)

Choosing the right IOL for your patients based on their visual system leads to better outcomes.

Circle No. 79

Marco ▲ (800) 874-5274  
www.marco.com

### M3

#### THE WORLD'S FIRST COMBINATION UNIT WITH NCT – THE MARCO M3®

The M3 from Marco is a combination automatic refractor, keratometer and non-contact tonometer. The M3 uses a highly sensitive CCD camera, which creates high-quality images for accurately measuring patients with cataracts, corneal opacities, IOLs and post-Lasik cases. Other features include automated eye alignment, auto-fogging system, tilt screen, motorized chinrest and new ergonomic design. The M3 easily integrates with other Marco refraction systems.

Circle No. 80

Marco ▲ (800)-874-5274  
www.marco.com

### THE EPIC AUTOMATED REFRACTION SYSTEM

The EPIC is our most innovative space- and time-saving combined workstation to streamline operations, grow your business and increase patient satisfaction. Marco has successfully installed thousands of automated refraction systems. Each receives the Marco certified implementation process that guarantees the efficiency and productivity to make your practice more successful. The EPIC delivers:

- Color, touch & tilt-screen for near testing
- Facilitated testing and target fixation
- One-touch toggle for “Quick Refract” sequence
- Intelligent cross cylinder
- Three contrast and glare-testing modes
- 4' x 5' footprint
- EMR integration

Circle No. 81

Marco ▲ (800) 874-5274  
www.marco.com

### MARCO TRS-5100 DIGITAL REFRACTION SYSTEM

The TRS-5100 is controlled with a programmable remote keypad, and delivers refractions in a fraction of the time it takes with traditional methods. The time saved provides more time for patient consults and optical. It allows the patient to simultaneously view their old and new Rx selections including day and night vision differences. The TRS-5100 also makes your life physically easier and more efficient – while giving patients a faster, more accurate, and positive exam experience. This refraction process increases staff efficiency, maximizes patient flow, and increases overall practice revenue and referrals. The TRS is equipped with “Marco Connect” SM software and is EHR/EMR compatible.
