**REVIEW**<sup>®</sup>  
of Ophthalmology

### Dear Doctor,

Review of Ophthalmology is pleased to offer you this preview of many exciting new products now available in the ophthalmic marketplace. Here, you'll learn about innovative new medications, diagnostic instruments, corrective lens options, in-office laboratory equipment and many other products. There are two ways to obtain more information on a particular product:

1. Go to [www.reviewofophthalmology.com](http://www.reviewofophthalmology.com), click Supplements, Product Guide digital edition, and then follow the prompts.
2. Circle the corresponding number on the enclosed reader service card for each product of interest. Fill in your name and address, and return the postage-paid card to us. Educational materials will be sent directly to you by the individual companies. Thank you for your interest and support!

## Product Guide

### Phoroptor® VRx Digital Refraction System

**A premium refraction experience from the most advanced Phoroptor® ever.**

Featuring the thinnest, most compact design, incredibly fast lens exchanges, motorized prisms, split cylinder lenses, and ultra-quiet operation, **Phoroptor® VRx** sets new standards in refraction. The ergonomic keypad features a multi-function control knob with unmatched feel and versatility, while the intuitive touch-screen interface has all the pre-programmed and programmable tests you'll need.

Phoroptor® VRx boasts effortless integration with EMR systems, and unlike other digital refraction systems, is compatible with a comprehensive list of pre-test and acuity devices from both Reichert® and other leading manufacturers.

Designed and assembled in the USA

### Ultramatic RX Master™ Phoroptor®

**Since 1921, the unmistakable feel of quality.**

The original and world's finest refracting instrument. Phoroptor® continues to be the industry standard after more than 90 years, offering its renowned mechanical quality and craftsmanship, optical quality, accuracy, and reliability.

Reichert **Ultramatic RX Master™ Phoroptor®** and **Ultramatic RX Master™ Illuminated Phoroptor®** are the only refracting instruments completely designed and manufactured in the United States. Each Phoroptor® is made of 1,000 pieces, assembled by hand in our Buffalo, New York factory.

Ultramatic RX Master™ Illuminated Phoroptor® features a patented, maintenance-free, cool-running, energy-efficient LED design.

### LensChek™ Pro and LensChek™ Plus Digital Lensometers

**Combining technology, simplicity, and value.**

The all-new **LensChek™ Pro** Digital Lensometer® with PD+UV and **LensChek™ Plus** Digital Lensometer® combine technology with simplicity at the core of your exam.

The new, compact, modern design and intuitive user interface offers the easiest lensmeter user experience available. For example, when the target is aligned with the correct optical center, readings can be automatically "locked-in" ensuring fast, repeatable, and reliable lens measurement. Both devices feature a brilliant 5.7 inch color LCD display.

LensChek™ Pro additionally features UV transmittance and PD measurement.

### OptoChek™ Plus Auto Refractor + Keratometer

**Combining technology, simplicity, and value.**

The all-new **OptoChek™ Plus** Auto Refractor + Keratometer, combines technology with simplicity at the core of your exam. The compact, modern design, and intuitive user interface of the OptoChek™ Plus offers the easiest user experience available for measuring objective spherical and cylindrical refractive errors as well as keratometry.

An innovative reliability index gives you confidence in obtained readings. Scotopic Pupil Size and Photopic Pupil Size modes adjust illumination to accommodate different lighting conditions. OptoChek™ Plus features a brilliant 5.7 inch color, touch LCD display, data output options, and a measurement range of Sphere: -30 D to +22 D, Cylinder: 0 D to ±10 D, Axis: 0° to 180°.

## Product Guide

### Ocular Response Analyzer® G3

**Corneal Hysteresis: A more objective predictor of glaucoma progression.**

**Provide a more confident glaucoma risk assessment and a more personalized treatment approach.**

Ocular Response Analyzer® is the only device that measures Corneal Hysteresis, a superior predictor of glaucoma progression. Corneal Hysteresis has consistently shown to be predictive of, or strongly associated with, glaucoma progression, and more powerfully so, than key indicators such as IOP and CCT.

**CPT® Code 92145 for Corneal Hysteresis**

### Reichert® 7CR and Reichert® 7

**Non-Contact Tonometers**

**The most advanced and the easiest to use.**

In 1972, Reichert® invented the non-contact tonometer (NCT), and after 45 years continues to offer the most accurate, trusted, and complete line of NCTs.

From the effortless one-button simplicity of Reichert® 7 to the clinically advanced Reichert® 7CR, which provides Corneal Compensated IOP (IOPcc), Reichert has a non-contact tonometer that suits your needs.

### Tono-Pen®

**Handheld Tonometers**

**Reichert® Tono-Pen® has been the trusted choice of clinicians for over 30 years.**

Introducing Tono-Pen AVIA® applanation tonometer now with Quick-Tap™ Measurement Mode. The same ready-to-use, calibration-free, and accurate operation – now with more confidence in fewer measurements – making Tono-Pen AVIA® the most advanced Tono-Pen® yet.

Tono-Pen® is less sensitive to corneal centration, ensuring fast and accurate IOP measurements with minimal training.

Protect your Tono-Pen and patients with genuine, FDA cleared Reichert® Ocu-Film® + Tip Covers.

### JOIN LEADING EYE CARE PROFESSIONALS TO OPTIMIZE VISION AND REDUCE RISK OF MACULAR DISEASE

MacuHealth's Advanced Formulation is the MOST RESEARCHED FORMULATION IN THE WORLD

- Increase all three serum carotenoids
- Enrich macular pigment density and volume across the spatial profile
- Significantly improves contrast sensitivity at 6 cpd
  - In healthy patients
  - Cataract patients
  - Patients with macular disease
- Veiling luminance and Glare reduction
- Faster photo stress recovery
- Improved dark adaptation
- Faster critical flicker fusion – ability to see higher frequency flicker
- Better coincidence anticipation – for better hand-eye coordination and faster decision making

### COMPUTERIZED READING ACUITY TEST – A KEY QUALITY OF LIFE FUNCTIONAL MEASURE

Whether you are assessing a patient's response to a refractive technology or a disease therapy, reading speed and reading acuity can provide valuable information about the quality of their vision. Remember! Reading acuity and Visual Acuity can be very different.

- Easy, economical and fast testing
- Ability to present sentences as small as 20/16 at 40cm
- Multiple languages
- Adjustable contrast and luminance
- 3 distance algorithms – near (40cm), computer (66cm) and intermediate (80cm)
- Randomized sentences to prevent familiarization

## Product Guide

### i.TERMINAL® 2 & i.TERMINAL® MOBILE BY ZEISS

i.Terminal 2 enables a premium patient experience.

- 60% faster than using manual measuring procedures
- 84% more accurate than a manual process.

Mobile centration is the modern way to capture your patient's individual fitting parameters.

- Can be used with any type of frame including large-sized sunglasses and sports frames
- Can integrate with EMR systems

### i.PROFILERplus® BY ZEISS

Ocular wavefront aberrometer, corneal topographer, autorefractor, and keratometer – all in one compact instrument.

- Includes i.Scription® by ZEISS software – Rx technology with ZEISS customized lenses
- Fully automated
- Binocular measurement in less than one minute
- Ocular wavefront measurement up to 7<sup>th</sup> order Zernike aberration
- Integration EMR and ZEISS Digital Refraction Systems
- Optional ATLAS® Review Software for advanced corneal topography

### VISULENS® 550 FROM ZEISS

The ZEISS VISULENS 550 provides reliable lens measurement for profound lens consultation and a high-level of patient care.

- Hartmann-Shack wavefront measurement sensor
- UV module with spectrometer range 370 to 480 nm in steps of 3 nm
- Display of measurement lists and patient worklists
- Network connectivity via LAN with web service, web server, shared folder, remote network configuration

### VISUREF® 100 FROM ZEISS

VISUREF 100 – a straightforward, easy-to-use Autorefractor / Keratometer provides accurate and reliable data for your daily practice routines.

- Motorized chin rest
- Auto-trigger function and integrated thermal printer
- Integration with EMR and ZEISS Digital Refraction Systems
- Fogging to reduce the effects of accommodation
- Refraction measurements of patients with implanted IOLs

### VISUSCOUT® 100 FROM ZEISS

With lightweight and compact design, the ZEISS VISUSCOUT 100 allows simple retinal imaging and great flexibility when and wherever the need arises.

- 40° FoV color and red-free images, autofocus
- 9x internal fixation targets
- Battery-powered
- Wi-Fi and USB connectivity, optional DICOM
- Highly portable, lightweight device

### VISUPLAN® 500 FROM ZEISS

VISUPLAN 500 makes this IOP examination very easy precise.

- Air-puff principle
- Fully automated with touch screen operation
- Easy to use and delegate to practice staff
- Fast measurement for easy and early identification of high-risk IOP patients even during pretest exams
- No need for anesthetics or fluorescein
- Integration with EMR

## Product Guide

### BQ 900® LED Slit Lamp

Fully integrated imaging solution

Choose the BQ 900 LED for advanced microscopy. The BQ 900 is powered by a long-lasting LED diode that offers exceptional detail and depth of field. It is the ultimate slit lamp due to its flexible modular design. The IM 900 imaging module offers a fully integrated imaging solution with unique features and technology. Other optional accessories include Teaching Scope, Inclined Eyepieces, Yellow Filter, Stereo Variator, and Beam Splitter.

### LENSTAR® APS Optical Biometer

Advanced biometry— better outcomes

The LENSTAR LS 900 with Automated Positioning is all you need for faster, more efficient biometry. Its easy mechanical tracking minimizes user delay and error, delivering more reliable results and a more comfortable patient experience. The dual zone keratometry with 32 measurement points provide precise K values, essential for planning toric lens implantation. With its integrated Olsen and Barrett formulas, as well as exclusive availability of the Hill-RBF Method 2.0 for IOL calculation, the LENSTAR provides the user with the best possible IOL prediction.
