Dear Doctor,

Review of Ophthalmology is pleased to offer you this preview of many exciting new products now available in the ophthalmic marketplace. Here, you’ll learn about innovative new medications, diagnostic instruments, corrective lens options, in-office laboratory equipment and many other products. There are two ways to obtain more information on a particular product:

2. Circle the corresponding number on the enclosed reader service card for each product of interest. Fill in your name and address, and return the postage-paid card to us. Educational materials will be sent directly to you by the individual companies.

Thank you for your interest and support!

Keeler 40H Goes Digital

The Q series 40H Digital and Digital Ready Slit Lamp comes with many additional features over and above the 40H K series Slit Lamps. As well as benefiting from the combined integrated camera and beam splitter (optional for the Digital Ready version), additional Slit Lamp features include a background illuminator, auxiliary diffuser, blue filter and camera and review control buttons mounted on the dashboard area. Add our Kapture Software Packages. Kapture Lite is a stand-alone system including still capture with live preview, patient data base, image processing, import and export, much more.

PANOCAM™ LT WIDE-FIELD DIGITAL IMAGING SYSTEM

The PanoCam LT represents the first entry of novel Hardware and Review Software, to help preserve healthy vision for all newborns.
- PanoCam LT captures digital images in high-resolution on light or dark colored retinal pigment.
- The field of view is 130 degrees.
- The Image Capturing Unit™ is not tethered and the system is completely wireless.

Visunex Medical Systems ▲ (844) 273-1580
www.visunexmedical.com

BioBOptix
Anti-sclerotic Extracellular Matrix

BioBOptix is a dehydrated, extracellular membrane allograft derived from human amniotic tissue that is intended for use as a scaffold for ocular tissue repair and regeneration.

CONVENIENT
For use in the inpatient, outpatient, and clinic setting. No refrigeration required.

PERFORMANCE
Adheres without sutures or glue to sclera and conjunctiva when applied to stromal surface.

AVAILABLE
In multiple sizes to fit your needs.

BioB, LLC | 1-877-675-4149 | bioBoptix.com

The new KR-800S Auto Kerato-Refractometer incorporates Topcon’s Rotary Prism technology for unparalleled accuracy and consistent measurements. It features several new tests, including visual acuity (VA) check for near and far distance, contrast sensitivity testing and glare testing, allowing you to confirm objective and subjective VA under glare conditions before cataract surgery. The compact and user-friendly design provides quick and accurate readings with minimal training required.

Topcon Medical Systems ▲ (800) 223-1130 newsgram.topconmedical.com/kr800s.htm

The CA-800 Corneal Analyzer from Topcon gives you all the tools you need to accurately evaluate the anterior corneal surface. It features a Placido based corneal topographer that analyzes over 100,000 data points as well as meibomian gland imaging, dynamic pupillometry, contact lens fitting and fluorescein video imaging. And, all this in an easy-to-use platform with an innovative 10.1” touch screen display.

Topcon Medical Systems ▲ (800) 223-1130 newsgram.topconmedical.com/ca800

The 5-in-1 KR-1W Wavefront Analyzer from Topcon combines wavefront aberration, corneal topography, auto-refraction, keratometry, and pupillometry all in one unit! The system is extremely easy to operate, featuring auto alignment and measurement, a large color touch screen, and invisible light measurement for added patient comfort. The onboard evaluation software with multiple map displays provides valuable pre- and post-op data for cataract and refractive procedures. The system is fully networkable in various configurations.

Topcon Medical Systems ▲ (800) 223-1130 newsgram.topconmedical.com/kr1w.htm

The CV-5000S Automated Vision Tester sets new quality standards. The fast lens rotation provides comfort for both user and patient while the compact and contemporary design enhances the doctor’s professional image. The CV-5000S provides a complete 21-point refraction and features the KB-50S One Dial Controller with a 10.4” color touch-screen display. Complete connectivity allows data to be sent automatically to every CV system throughout the office and populated automatically into the EMR, making paperless refraction a reality.

Topcon Medical Systems ▲ (800) 223-1130 newsgram.topconmedical.com/cv5000s.htm

The CA-800 Corneal Analyzer from Topcon gives you all the tools you need to accurately evaluate the anterior corneal surface. It features a Placido based corneal topographer that analyzes over 100,000 data points as well as meibomian gland imaging, dynamic pupillometry, contact lens fitting and fluorescein video imaging. And, all this in an easy-to-use platform with an innovative 10.1” touch screen display.

Topcon Medical Systems ▲ (800) 223-1130 newsgram.topconmedical.com/ca800

The new SL-D701 Slit Lamp from Topcon features a bright and homogenous LED illumination source for enhanced observation of the eye structures. With its optional DC-4 Digital Photo Attachment, the SL-D701 can obtain clear and sharp still images of the eye as well as vivid color videos with remarkable resolution and detail. Basic EZ Capture software is provided with the DC-4 attachment. To further enhance the imaging results, the SL-D701 also features an optional BG-5 LED Background Illuminator that provides homogeneous adjustable illumination to the photographed areas of the anterior segment of the eye and allows for Meibomian gland observation and documentation.

Topcon Medical Systems ▲ (800) 223-1130 newsgram.topconmedical.com/sld701
The Topcon PASCAL® Pattern Scanning Laser Systems are renowned for their precision, ease of use and enhanced patient comfort. The PASCAL® method of photocoagulation allows physicians to control the precision, safety and efficiency of the laser procedure, while optimizing patient comfort and convenience. Topcon offers the PASCAL® Synthesis™ Series, Topcon’s premiere dual-port pattern scanning retinal laser, available in both 532nm and 577nm wavelengths. The optional Endpoint Management™ software with Landmark Patterns™ allows for less-damaging sub-threshold treatment of a variety of retinal disorders.

TOPCON PASCAL® SYNTHESIS™ PATTERN SCANNING LASER WITH ENDPOINT MANAGEMENT™

New Single Use Lenses - Bio, Laser & Gonio

- Sterile Packaged in Boxes of 10 Lenses
- Trusted Quality of Volk Optics
- 100% Assurance Against Disease Transmission
- Pure Convenience – No More Reprocessing
- Available lenses:
  - Capsulotomy & Iridotomy
  - Surgical 20D & 28D BIO
  - 3-Mirror & 4-Mirror Gonio
- Buy in Bulk and Save Up To 16% Off

VOLK INVIEW – IPHONE FUNDUS CAMERA

- Leverage the power and convenience of the Apple iPhone with the trusted quality of Volk optics.
- Quickly & effortlessly capture fundus images for visualization & patient education.
- Mydriatic retina camera using an iPhone (SE/6s/6/5s) or iPod Touch (6).
- 50° static field of view; out to 80° with dynamic maneuvering.
- Free mobile application available in the Apple App Store (search Volk iNview)

VOLK TRANSCEND TVG SURGICAL GONIO LENS

- Stabilizes and controls the globe with Thornton-style fixation ring
- Minimizes corneal pressure due to floating lens technology
- Clear angle visualization
- Ambidextrous design
- Steam sterilizable

VOLK PICTOR PLUS — PORTABLE OPHTHALMIC IMAGER

> From the exam room, to on-location screenings, nursing home calls, and everywhere in between, the Pictor Plus portable imager moves with your practice & makes it possible to expand your services.
- Improves Patient Care
- Simple Integration
- Maximum Portability
- Superior Versatility
- Pays for Itself
- Available imaging modules for the retina and the anterior segment
- New module available for portable Fluorescein Angiography

VOLK IS-5500 INSTRUMENT STAND

The Topcon IS-5500 Instrument Stand incorporates innovative functions along with traditional Topcon quality and durability. It features an overhead LED reading lamp, and a smaller and more compact design that brings the control panel and the three “Smart Charge” wells down towards the user, facilitating their reach. An illuminated liquid-proof membrane control panel makes it easy to operate in darkened environments and provides full control of the stand, chair and room light functions. Its innovative EZ-Lock Brake Release mechanism allows for effortless movements and easy storage between exams. The IS-5500 is available with an optional 3rd arm for a second instrument and an optional CV kit for computerized refraction. It can be combined with a number of Topcon exam chairs to create a complete examination unit.

NEW SINGLE USE LENSES - BIO, LASER & GONIO

- Sterile Packaged in Boxes of 10 Lenses
- Trusted Quality of Volk Optics
- 100% Assurance Against Disease Transmission
- Pure Convenience – No More Reprocessing
- Available lenses:
  - Capsulotomy & Iridotomy
  - Surgical 20D & 28D BIO
  - 3-Mirror & 4-Mirror Gonio
- Buy in Bulk and Save Up To 16% Off

QUANTIFEYE® MPS II
An Optical Assessment Instrument for Macular Health.

QuantifEye, the industry-leading macular pigment optical density (MPOD) measurement instrument for doctors to evaluate patient eye health. This technology is accurate, reliable, and repeatable and features scientifically-validated software while offering these additional benefits:

• Unsurpassed patient and technician usability with Data Quality Index (DQI)
• Significantly faster testing-time in the lane with enhanced features and user-interface
• Intuitive workflow with multiple records

Contact us today for more information, and to find out how you can get a 60-day, risk free evaluation for your practice.

EYEPROmise NUTRACEUTICALS
Live in focus.

EyePromise offers a comprehensive line of science-based, doctor-recommended, ocular nutraceuticals, covering a full range of patient needs. With more than 55-million doses consumed and counting, EyePromise products are made in the U.S.A. from the highest-quality, natural ingredients. Backed by an unconditional 60-day, money-back guarantee, EyePromise is the only brand guaranteed to increase MPOD (Macular Pigment Optical Density). Our nutraceutical line is comprised of the following:

• Macular Health
• Occasional Dry Eye
• Visual Function Protection
• Athletic Visual Performance

Contact us today for more information on any of our nutraceuticals and how they can help benefit your patients and practice.

HUVITZ AUTO LENSMETER WITH BLUE LIGHT HAZARD MEASUREMENT FUNCTION | HLM-9000

One of a kind, the Huvitz Auto Lensmeter HLM-9000 measures the harmful effects of LED screens by utilizing the Blue Light Hazard Measurement function, creating a proficient practice. Features include:

• Full compatibility with all EMR Systems
• Wavefront Analysis Technology of Hartmann Sensor
• Wireless Communication
• Improved Accuracy with Green Light Beam
• UV Measurement
• Wide Tilting Angle
• Intuitive Prism Direction
• Simple GUI

HUVITZ AUTO REF/KERATOMETER WITH MEIBOMIAN GLAND & TFBUT FUNCTIONS | HRK-9000A

The exceptional HRK-9000 offers the first Contact Lens Fitting Guide with color camera, Meibomian Gland Analysis and Tear Film Break Up Time (TFBUT) measurement functions. Features include:

• Contrast Sensitivity & Glare Test
• Wavefront Technology
• Wireless Communication
• Anterior Segment Pictures & export to PC
• Peripheral Keratometry Measurement
• IOL Mode
• Iris & Pupil Diameter Measurement
• Efficient Contact Lens Prescription
• Micro Lens Array

EYEPORt® II
Vision Training System

START OFFERING THIS FDA CLEARED TRAINING DEVICE IN YOUR PRACTICE TODAY!

THE EYEPORt® II IS THE ONLY VISION TRAINING TOOL TO BE CLEARED BY THE FDA FOR THE TREATMENT OF FOCUS ACCOMMODATIVE AND VERNIER ACUITY DEFICIENCY, COMBINING ACCOMMODATION AND LENS (NON-PHYSIOLOGICAL) VISIBILITY.

What makes the EYEPORt® II unique is its patented use of alternating red and blue lights which help patients to achieve dramatic visual function and improved efficiency when training. The EYEPORt® II is a simple tool for both in-office and at home vision training and is a classic tool for physiotherapists, optometrists and ophthalmologists interested in improving vision in their patients.

Visit our website to learn more information about the EYEPORt® II as well as stories supporting the EYEPORt® II System.

HUVITZ DIGITAL REFRACTOR | HDR-9000

Equipped with a 21 Point Exam Package, the HDR-9000 makes it easier to read results for both the examiner and patient. Features include:

• Wi-Fi Wireless communication
• Tiltable body: 0°-45°
• LCD Chart Compatibility (Linear & circular polarization)
• Dual & Jackson cross cylinder lens for highly accurate astigmatism axis & visual acuity exams
• Monocular height adjustment: +/- 3mm
• Tablet PC Control (optional)

OPHTHALMIC
Product Guide

HAI SL-5000e Elevate Slit Lamp
Introducing the HAI SL-5000e Elevate, the world's first slit lamp specifically designed and engineered from the ground up to meet the challenge of examining plus-sized patients and patients with limited mobility.

Features:
- American quality design and engineering
- Premium German-made optics
- Superior image clarity through precision alignment
- Five levels of magnification from 6x-40x
- Reduced strain and improved comfort

HAI CL-1000eva Endothelium Viewing Attachment
The HAI CL-1000eva converts any compatible slit lamp into a specular microscope, providing a high-magnification view of endothelial cells with software that performs automatic image capture, frame selection, enhancement and analysis.

Features:
- Live image of endothelium
- Auto select and enhance images
- Analyze cell density, area & morphology

Available for $15,990 with HAI SL-5000s

HAI SL-5000 Series Slit Lamps
SL-5000bx Basic:
- 10x-16x 2-step mag
- 0-9mm slit aperture
- Available for $1,990

SL-5000s Standard:
- 6x-40x 5-step mag
- 0-9mm slit aperture
- Available for $2,990

SL-5000p Plus:
- 6x-40x 5-step mag
- 0.2-14mm slit aperture
- Available for $4,590

Affordable and versatile, HAI slit lamps are precision-aligned for remarkable image quality, featuring imported German optics for increased clarity and depth of focus. Standard and Plus models are available with live-streaming digital video camera. SL-5000s & SL-5000p also available for LED. (The price is different)

HAI SL-5000h Handheld Slit Lamps
Bring your slit lamp anywhere you go with the SL-5000h, a rugged and lightweight solution for eye care practitioners on the move.

Features:
- 10x and 16x magnification (built-in switch)
- 0-12mm slit aperture
- Heat absorption, natural, cobalt and red-free filters
- Comes with hard-cover travel case, diopter adjuster, patient forehead rest, two (2) rechargeable batteries, and AC wall adapter

Available for $2,380

HAI VC-170 LED Vision Chart
HAI VC-170 makes it easy to access over 25 vision tests at the touch of a remote button, all on a slim backlit LED screen. Simply mount, plug and play to set up. Customizable, user-friendly and reliable, the VC-170 is a hassle-free addition to busy practices anywhere.

Features:
- Vector-rendered optotypes and charts
- V-style optotype arrangement
- Adjustable working distance and image size
- Various visus units for different operation
- Red and green values can be set real-time
- Reversible optotypes and charts for mirrors
- Gamma calibration for contrast sensitivity

Available for $1,590

HAI Exam Lane Packages
Brought to you by the experienced team behind HAI Labs, HAI Ophthalmics is your new one-stop shop to buy, rent or lease premium exam lane and diagnostic equipment from brands you know and trust, without the hefty price tags.

- S4OPTIK exam chairs and stands
- HAI slit lamps and LED vision charts
- Tomey autorefractors, keratometers, lensometers, pachymeters, ultrasounds and more!

Contact us for details.

AKR 550 AUTO KERATO-REFRACTOMETER
> Outstanding refractive measurement with quick and simple operation
- High accuracy measurement on even small pupils
- Guided alignment that automatically starts measurement when pupil is focused
- Pupil size measurement in scotopic and photopic light conditions
- Screen tilts and swivels for comfort when seated or standing
- Automatic data transfer to APH 550

Circle No. 35

AKR 750 AUTO KERATO-REFRACTOMETER
> Fast, accurate and fully automatic: an ideal solution for delegating patient measurement
- One-touch button measuring process for both eyes
- Ultra-precise measurements for even small diameter pupils
- Auto and manual measurement modes available
- Wide range of measures including peripheral keratometry with eccentricity
- Large 7" tilting screen for easy operation
- Automatic data transfer to APH 550

Circle No. 37

CORNEA 550 CORNEAL TOPOGRAPHER
> Specially designed for contact lens fitting and dry eye analysis
- High-resolution color camera
- Wide array of graphic representations
- Large contact lens database and autofit function
- Advanced qualitative and quantitative tear film assessment
- Dynamic and static capture pupillometry
- Independent screen to facilitate the sharing of results

Circle No. 39

RETINA 400 FUNDUS CAMERA
> Simple and flexible solution for high definition retinal imagery
- Non-mydriatic retinal camera
- High resolution sensor and wide field of vision
- Intuitive software including automated operations
- Independent screen to facilitate the sharing of results
- Flexible and adaptable to different practice configurations

Circle No. 38

SL 500L / SL 550L DIGITAL SLIT LAMP
> Professional solution for complete eye examination
- High quality optics and cutting-edge LED illumination
- 5 magnification levels
- Wide range of filters: cobalt blue, green, red, neutral density
- Integrated yellow filter and background illumination
- HD Digital camera DS 550 (optional)

Circle No. 40

AKP 550 AUTOMATIC PHOROPTER
> High-end automatic phoropter for speed, precision and comfort in every refraction situation
- Highly intuitive, easy-to-use touch screen control
- Customizable test sequences
- Easy data transfer from lensmeter to streamline exam
- Quiet and high speed rotation disk for optimal patient comfort

Circle No. 36
**VX 120** FULLY AUTOMATED, WAVEFRONT BASED COMPLETE DIAGNOSTIC DEVICE

The first comprehensive diagnostic device that utilizes a combination of Aberrometry, Auto Refraction, Keratometry, Topography, Non-Contact Tonometry, Pachymetry, Pupillometry and Scheimpflug Imaging in order to provide a more complete understanding of your patient's eye.

- Anterior segment analysis
- Corneal thickness measurement
- Indocinax angle
- Customized screening options for cataract, glaucoma and corneal diseases
- Analysis of pre and post surgical follow up
- Visual Acuity Analysis

**VX 40** FULLY AUTOMATIC LENS ANALYZER

The VX 40 is a new generation, fully automated, wavefront based lens analyzer. One click operation provides unparalleled ease of use and comprehensive lens analysis throughout the entire clinic. Precise to .01 diopler, the VX 40 is the perfect blend of accuracy and efficiency.

- 1,350 measurement points
- Automatic lens type detection
- Progressive and free form analysis
- Accurate results with .25, .12 and .01 diopter readings
- Integrated printer
- Automatic prism measurement

---

**Spectra Iris**

The little indirect now has even bigger benefits.

- Adjustable aperture for all pupil sizes
- Portable and convenient
- LED long lasting white illumination
- Lightweight and comfortable
- Stylish, comfortable, attractive frame

---

**VX 55** DIGITALIZED MANUAL PHOROPTER

With its precise engineering and outstanding performance, the VX 55 makes refraction quicker and easier than ever! Combining flexible operation and the reliability you expect into a fully automated refraction.

- Control the entire refraction process with a tablet, including charts display
- Full tablet control allows you to focus on refraiding without having to look up at the chart or phoropter
- Rapid switching between lenses allows for greater certainty in patient feedback
- Guided interactive tutorial screen
- The VX55 is able to communicate with other devices
- Give your patients the "wow" factor with new technology

---

**LIPISCAN, NEW RAPID HIGH DEFINITION (HD) MEIBOMIAN IMAGER**

LipiScan is a new rapid high definition (HD) Meibomian Imager that was created with end users in mind. Fast and intuitive, LipiScan harnesses patented dynamic meibomian imaging (DMI) technology to allow ECPs to assess meibomian gland structure during routine workups in any practice setting.

---

**Keeler Slit Lamp**

Technology In Your Hands

**PSL Classic**
- Keeler Optics
- 10x & 16x Mag
- Docking Station & Direct Inline Charging

**PSL 1**
- Keeler Optics
- 10x Mag
- Direct Inline Charging

All of the other great features, including iPhone 4 Technology, Controllable illumination from maximum to zero lumens, charge and use the battery simultaneously (always have power) and the most apertures/filters along with 1.0 mm square patch for assessing a/c flare.

OPHTHALMIC
Product Guide

Digital Imaging Anywhere!
New VantagePlus Digital Ophthalmoscope
Keeler leads the way again with the first digital binocular indirect system. Not only analog video but true
digital imaging.

The intuitive and powerful software allows you to use your laptop or any USB interface to optimize the examination,
provide still or dynamic images, which aid in the documentation and diagnosis of your patient.

Increase your practice profile by educating your patients and their family with digital dynamic imaging in your office.

Another Bright Idea From Keeler
NEW - VantagePlus LED Slimline with Convertible Technology.
(Neutral LED & Xenon illumination)

- Longest life - 10,000 hours, brightest, better detail.
- 25% brighter than standard bulbs.
- New Slimline battery, lightest and fits in your hand.
- Combined LED & Lithium Polymer battery can provide up to 6 hours of use on a single charge.

Be the envy of all your peers and ask for a free, no obligation demonstration!

Keeler KAT Goes Digital
Discover the new standard in Applanation Tonometry. The first FDA
510(k) digital applanation tonometer to receive marketing clearance allows fast
and accurate measurements with a LED IOP display. With less moving parts, the
D-Kat is more reliable and calibration check takes just seconds.

Keeler Cryomatic
The Standard in Cryo-Surgery
The Keeler, CryoMatic is the first ophthalmic cryo-system with
cryosmart technology. The console has a built-in monitoring system
which self-adjusts the optimal operating parameters for any given
probe. The CryoMatic offers the surgeon and his staff a system which
performs time after time.

- Disposable & Reusable Probes.
- Automatic Gas Adjustment, any
probe will perform optimally.
- Fast Freeze and Defrost, for ease
of use.
- No manual adjustments, easy
set-up.

SM software and is EHR/EMR compatible. The TRS is equipped with "Marco Connect" increases overall practice revenue and referrals. Staff efficiency, maximizes patient flow, and experiences. This refraction process increases more accurate, and positive exam efficiencies. This refraction process increases staff efficiency, maximizes patient flow, and increases overall practice revenue and referrals. The TRS is equipped with "Marco Connect" SM software and is EHR/EMR compatible.

The TRS-5100 is controlled with a programmable remote keypad and delivers refractions in a fraction of the time it takes with traditional methods. The time saved provides more time for patient consults and optical. It allows the patient to simultaneously view their old and new Rx selections including day and night vision differences. The TRS-5100 also makes your life physically easier and more efficient – while giving patients faster, more accurate, and positive exam experiences. This refraction process increases staff efficiency, maximizes patient flow, and increases overall practice revenue and referrals. The TRS is equipped with "Marco Connect" SM software and is EHR/EMR compatible.

The EPIC is our most innovative space- and time-saving combined workstation to streamline operations, grow your business and increase patient satisfaction. Marco guarantees the efficiency and productivity to make your practice more successful.

Marco ▲ (800) 874-5274  www.marco.com

The EPIC delivers:
• Color, touch & tilt-screen for near testing
• Facilitated testing and target fixation
• One-touch toggle for “Quick Refract” sequence
• Intelligent cross cylinder
• Three contrast and glare-testing modes
• 4’ x 5’ footprint
• EMR integration

INTRODUCING an Autorefractor / Autokeratometer with Glare Testing! The Marco ARK-1s combines an autorefractor/autokeratometer with glare testing! You can now measure and document vision loss due to glare and also test for low contrast, accommodation, and retro-illumination. The new faster and more automated ARK-1s has enhanced features including advanced SLD technology making measurement of patients with dense cataracts possible, incorporating (for the first time) a multiple pupil, zonal ring image method. The ARK-1s has fully automatic alignment, tracking, and focusing ability and can perform a spherical refinement as well as unaided visual acuity. The additional ergonomic design enhancements provide greater comfort for both operator and patient.

Marco ▲ (800) 874-5274  www.marco.com

A sophisticated blend of optical efficiency and production quality, the GS is a true powerhouse in a comprehensive line of premier slit lamps. With a wider field of view, enhanced light transmission, and a greater depth of field, the GS delivers a more precise and comfortable viewing experience. When it comes to engineering and building a slit lamp for today’s demanding practitioner . . . your focus has always been our focus.

**CANON RK-F2 FULL AUTO REF-KERATOMETER**

Simplify and accelerate the exam process in just one step. With a press of the start button, the RK-F2 automatically completes the entire series of steps: alignment, measurement and printout. The motorized optical head automatically aligns, acquires the ARK readings, and then automatically moves over to the opposite eye to perform the same function. Data can be printed or exported via RS232-C or LAN output.

**CANON CR-2 PLUS AF DIGITAL NON-MYDRIATIC RETINAL CAMERA**

The CR-2 PLUS AF 18 MP camera captures and analyzes truly superior color and fundus autofluorescence images—quickly and efficiently. Designed around Canon’s advanced EOS optics and CMOS image sensor, the camera provides superior retinal images down to 3.3 mm. Integrated auto functionality includes: auto-fundus, auto-focus, auto-capture, auto-exposure, Image Error Detection, Low-Flash and Quick Preview modes, this retinal camera is a breeze to operate. The CR-2 AF Non-Myd 20.2 MP model which provides color imaging is also available.

**MACUHEALTH WITH LMZ³**

Containing all three critical carotenoids in our patented 10:10:2 formula, consisting of meso-zeaxanthin (10mg), lutein (10mg) and zeaxanthin (2mg), MacuHealth with LMZ³ is proven to quickly and effectively rebuild macular pigment.

A healthy macular pigment reduces oxidative stress, which helps protect photoreceptor cells from damage and reduces the risk of blindness later in life.

Supplementation with MacuHealth with LMZ³ will help enhance visual performance by reducing glare and improving contrast.

Product Guide

INSIGHT VISUAL ACUITY SYSTEM

The InSight Visual Acuity System is an innovative solution to your acuity needs. It’s the first LCD Acuity that does not require a PCI. Not only do you get all your standard charts & tests, but the system includes animation. The charts can be set to randomize for patients who may have memorized the chart. In addition, now you have the option of a static chart, this chart presents the same opto types from your typical manual projector and does not randomize.

Patient Education: Image Album  
(to be updated)

Media Package - including Video (Finding Nemo)

Calibration for 3'-22'

LIGHTSPEED LENSMETER

The Yeasn LightSpeed Auto Lensmeter is true wavefront for optimal performance. The built-in Hartmann Shack sensor and Green LED light capture provide the highest of accuracy. The Green LED technology eliminates errors due to varying abbe values. The unique parallel processor provides amazingly fast data guaranteed in under 50ms! The LightSpeed is a full service Auto Lensmeter at an affordable price.

• Compact Lens Table
• Hartmann Shack Wavefront Technology
• Parallel Processor
• Adjustable LCD Touchscreen for ease of use
• Auto Lens Detection — Single, Multifocal, Progressive
• Large Prism Range
• Built In PD, UV and Printer

RESEEVIT™ EVOLUTION  
THE TOTAL DIGITAL IMAGING SOLUTION

ReSeeVit™ has been the industry leading imaging software suite since 1992. What began as a single device to “store and forward” anterior segment images has grown into the most complete suite of digital imaging products available on the market. Modules include: Anterior Segment, Retina, Endothelium and Wavefront corneal topography.

Features:
• Robust EMR Integration
• IHE (Integrating the Health Enterprise) certified
• DICOM Compliant with full IHE Workflow
• Linear Measurement Capabilities in millimeters
• Video and Still Image Capture
• Integrated Interpretation and Report imbedded into exam
• Cup to Disc Measurement

DEMAND A BETTER COLOR VISION TESTING SOLUTION

The HRR Pseudoisochromatic Test is the most advanced color vision test available. Features include congenital and acquired testing, identification of the type of defect and diagnosis of the extent of the defect as well as quick positive classification of normals. The testing strategy eliminates memorization and malingering. This test is suitable for both adults and children.

Visit www.good-lite.com and search for p/n 730005.

Circle No. 81

LOW-COST ETDRS TESTING

The ESC2000 Illuminator Cabinet provides a uniform retro-illuminated testing surface. The cabinet utilizes a pure-white LED light source. This illuminator has a much smaller footprint (only 3.0 inches deep) than traditional ETDRS light boxes. Simply turn on the ESC device and it is ready for testing. No burn-in time required! Universal power supply!

TOPCON TRC-NW400 NON-MYDRIATIC RETINAL CAMERA

The Topcon TRC-NW400 is a fully automated, easy-to-use, non-mydriatic retinal camera that is designed to obtain high-resolution color images of the retina and the anterior segment of the human eye. It is equipped with automatic focusing and capture and a fully automated mechanism that moves the optical head from one eye to the other without operator intervention. The TRC-NW400 can be used as a stand-alone unit or in conjunction with a remote server or EMR system. It is DICOM compliant and also available with the optional Topcon IMAGEnet® 5 digital imaging software.

BAUSCH + LOMB PEROXICLEAR® SOLUTION

A unique and innovative peroxide solution from Bausch+Lomb.

Lenses ready in only 4 hours.

For all of your patients wearing soft or RGP lenses who use a peroxide solution to care for their lenses.

To order PeroxiClear starter kits, call 1-800-828-9030 or to learn more, visit www.bausch.com/peroxiclear.

PARASOL® AND EXTEND®: THE #1 CHOICE FOR PUNCTAL OCCLUSION!

Beaver Visitec International (BVI) offers the Parasol Punctal Occluder and Extend Absorbable Implants. The Parasol’s unique design is exceptionally easy to insert, requiring little or no dilation. Simple sizing means two sizes fit virtually all. In addition, BVI (formerly Odyssey) offers guaranteed retention with an industry-high 92% retention rate. Short-term collagen, mid-term Extend and a variety of dry eye diagnostic tests are also available.

Ocular Response Analyzer® G3

Corneal Hysteresis: For Glaucoma Risk Assessment

Make a more confident glaucoma risk assessment, with Corneal Hysteresis.

Ocular Response Analyzer® is the only tonometer that measures Corneal Hysteresis, a superior predictor of glaucoma progression. Corneal Hysteresis has consistently shown to be predictive of, or strongly associated with, glaucoma progression, and more powerfully so, than key indicators such as IOP and CCT.

New! CPT® Code 92145 for Corneal Hysteresis
