Dear Doctor,

Review of Ophthalmology is pleased to offer you this preview of many exciting new products now available in the ophthalmic marketplace. Here, you'll learn about innovative new medications, diagnostic instruments, corrective lens options, in-office laboratory equipment and many other products. There are two ways to obtain more information on a particular product:

2. Circle the corresponding number on the enclosed reader service card for each product of interest. Fill in your name and address, and return the postage-paid card to us. Educational materials will be sent directly to you by the individual companies.

* Also, be sure to watch for Daily Product Showcase E-blast deployments, highlighting these listings later this month.

Requesting product information is now fast and easy! Go to www.reviewofophthalmology.com, click Additional Publications, Product Guide digital edition and follow the prompts to request product information.
iCare IC100
The sterile tonometer
+ No drops, air, or calibration needed
+ Consistent & accurate readings
+ Single use probes to exceed infection control guidelines

Call 888.422.7313 or email infousa@icare-world.com
www.icare-world.com/us

iCare HOME
24-hour at home tonometry
+ Easy to use
+ Remote diurnal IOP curve
+ Long term monitoring
+ Alert notifications

Call 888.422.7313 or email infousa@icare-world.com
www.icare-world.com/us

iCare IC200
200 degrees of tonometry
+ Supine, elevated & seated operation
+ No corneal disruptions
+ Suitable for every patient
+ Single use probes to exceed infection control guidelines

Call 888.422.7313 or email infousa@icare-world.com
www.icare-world.com/us

iCare DRSplus
Automated TrueColor retinal imaging
+ TrueColor confocal imaging
+ Ultra high resolution
+ Fast image acquisition
+ No dilation (2.5 mm pupil size)
+ Space saving

Call 888.422.7313 or email infousa@icare-world.com
www.icare-world.com/us

iCare EIDON FA
Ultra high resolution retinal imaging
+ TrueColor
+ Autofluorescence imaging
+ Wide-field view
+ Ultra high resolution
+ Fluorescein angiography video & imaging

Call 888.422.7313 or email infousa@icare-world.com
www.icare-world.com/us

iCare COMPASS
Fundus automated perimetry
+ Real-time retinal tracking
+ Imaging & Perimetry in one device
+ TrueColor confocal retinal imaging
+ No trial lens required
+ Significantly less variable than Standard Perimetry

Call 888.422.7313 or email infousa@icare-world.com

OPHTHALMIC Product Guide

ZEISS DIGITAL FITTING AND CONSULTATION

ZEISS VISUFIT 1000
- 3D centration quickly and precisely, nine cameras with 45 million points of reference.
- Fixation target for vergence control.
- Pupil center or reflex targeting.

Circle No. 11

Carl Zeiss Vision Inc. ▲ 1-800-358-8258
www.zeiss.com/equipment

ZEISS PRE-TEST SUITE
Provides reliable measurements for profound consultation and a high-level of patient care.
- Wavefront aberrometer/topographer
- Autorefractor/keratometer
- Non contact tonometer
- Hand held retinal camera
- Wavefront lensmeter

Circle No. 12

Carl Zeiss Vision Inc. ▲ 1-800-358-8258

"SAFE EYEGLASS DISINFECTION IN 40 SECONDS"

- CES Innovation Award 2021 Honoree
- 6 - 10 frames each cycle
- No liquids, chemicals, smells or disposable waste
- Kills up to 99.5% of common viruses and bacteria on the surface of eyeglasses.*
- Compact: only 12” Wide x 12” High x 20” Deep and 18lbs.

*Independent laboratory tests show effectiveness of 99.995% against adenovirus, 99.68% against influenza viruses, 99.47% against Escherichia coli.

ZEISS EXAM LANES
Offer complete solutions for subjective refraction and world class optics
- Refractors – digital and manual
- Acuity systems
- Chairs and stands
- Slit Lamps – tower and integrated
- Tonometers

Circle No. 14

Carl Zeiss Vision Inc. ▲ 1-800-358-8258

TearRestore
The First Open-eye Warm Compress

Effective & Consistent Heat

TearRestore supplies therapeutic heat (~40°C) for a minimum of ten minutes every two. This ensures patients and doctors an effective treatment every time.

Unique Convenience & Natural MG Expression

TearRestore’s design utilizes anatomical norms to target the eyelids while avoiding the glans. This permits the user to see and blink throughout treatment, resulting in improved compliance and natural meibomian gland expression.

pg. 3
Phoroptor® VRx
Digital Refraction System
A premium digital refraction experience at a safe distance.
Featuring the thinnest, most compact design, incredibly fast lens exchanges, motorized prisms, split cylinder lenses, and ultra-quiet operation, Phoroptor® VRx sets new standards in refraction. The ergonomic keypad features a multi-function control knob with unmatched feel and versatility, while the intuitive touchscreen interface has all the pre-programmed and programmable tests you’ll need. Phoroptor VRx provides a premium digital refraction experience at a safe distance, now from across the room or across the Internet. Phoroptor VRx is the only system that connects to all major brands of pretest devices and EMR platforms.

ClearChart® 4
Digital Acuity Systems
Pixel-perfect and purpose-built.
The family of ClearChart® Digital Acuity Systems are elegant, all-in-one, simple-to-use, and uniquely designed to meet all of your acuity testing needs with a wide selection of optotypes, and other special test charts.

Reichert® 7CR
Non-Contact Tonometer
A better pressure measurement with Corneal Response Technology®.
In 1972, Reichert® invented the non-contact tonometer (NCT), and continues to innovate tonometry with the clinically advanced and easy-to-use Reichert® 7CR.
Using patented Corneal Response Technology® which takes corneal biomechanics into account, Reichert 7CR provides Corneal Compensated IOP (IOPcc), a better pressure measurement.

Ocular Response Analyzer® G3
Corneal Hysteresis: Measure Beyond Pressure.
Provide a more confident glaucoma risk assessment and a more personalized treatment approach.
Ocular Response Analyzer® is the only device that measures Corneal Hysteresis, a superior predictor of glaucoma progression. Corneal Hysteresis has consistently shown to be a more powerful predictor of, and strongly associated with, glaucoma progression, more so than key risk factors such as IOP and CCT.

Tono-Pen®
Handheld Tonometers
Reichert® Tono-Pen® has been the trusted choice of clinicians for over 30 years.
Tono-Pen® helps to provide essential care while keeping your patients and staff protected. Tono-Pen AVIA® applanation tonometer now with Quick-Tap® Measurement Mode is ready-to-use, calibration-free, and accurate — with more confidence in fewer measurements.
Tono-Pen is less sensitive to corneal centration, ensuring fast and accurate IOP measurements with minimal training.
Protect your Tono-Pen and patients with genuine, FDA cleared Reichert® Ocu-Film® Tip Covers.

Ocu-Film®+ Tip Covers
Tono-Pen® Tip Covers
Protect your Tono-Pen® Handheld Tonometer and your patients.
Genuine blue Reichert® Ocu-Film®+ Tip Covers protects your Tono-Pen® Tonometers from dust and fluids. help protect patients from the risk of cross contamination. Ocu-Film®+ Tip Covers are single-use, sanitized, and easy-to-apply. Ocu-Film®+ Tip Covers are FDA cleared and the only Reichert® approved tip covers for use with Tono-Pen Tonometers. Ocu-Film®+ Tip Covers are available individually packaged in boxes of 150 or bulk packs of 600.
Octopus 900®
Versatility PLUS connectivity!

The Octopus 900, with EyeSuite Progression Platform, is the most versatile perimeter available. The Octopus 900 features more options for reliable testing, including: static White/White, Blue/Yellow, Red/White, Flicker, Low Vision and computer-assisted true Goldmann Kinetic, TOP Strategy for thresholds in 2 ½ minutes and our unique fixation control. EyeSuite, the industry’s most advanced software for progression analysis, includes the first perimeter analysis to combine structure and function with real-time interactive access to all perimetric data with easy networking and free viewing stations.

Reliance FX-920®
The standard for chair design

The FX-920 sets the standard for design while retaining the core value of all Reliance products – rugged durability. All surfaces of the chair are designed to support a patient’s entire weight. Ergonomic full power tilt is efficient for the practitioner and comfortable for the patient. A full complement of controls is available on both sides of the chair, while the detached dual footswitch adds flexibility.

BQ 900® LED Slit Lamp
Fully integrated imaging solution

Choose the BQ 900 LED for advanced microscopy. The BQ 900 is powered by a long-lasting LED diode that offers exceptional detail and depth of field. It is the ultimate slit lamp due to its flexible modular design. The IM 900 imaging module offers a fully integrated imaging solution with unique features and technology. Other optional accessories include Teaching Scope, Inclined Eyepieces, Yellow Filter, Stereo Variator, and Beam Splitter.

LENSTAR® APS Optical Biometer
Advanced biometry—better outcomes

The LENSTAR LS 900 with Automated Positioning is all you need for faster, more efficient biometry. Its easy mechanical tracking minimizes user delay and error, delivering more reliable results and a more comfortable patient experience. The dual zone keratometry with 32 measurement points provide precise K values, essential for planning toric lens implantation. With its integrated Olsen and Barrett formulas, as well as exclusive availability of the Hill-RBF Method 2.0 for IOL calculation, the LENSTAR provides the user with the best possible IOL prediction.

Octopus 600®
Early diagnosis and standard white-on-white perimetry in one device

The Octopus 600, with EyeSuite Progression Platform, extends Haag-Streit’s product range of visual field analyzers, combining the Pulsar method for early glaucoma detection and standard White/White perimetry for long term follow-up in one compact and stand-alone device. Unique fixation control for blinking, pupil position, darting and forehead contact, yields more reliable results, and with our Tendency Oriented Perimetry (TOP strategy) thresholds are performed in 2½ minutes.

BI 900® LED Slit Lamp
Simplified operation meets high reliability.

Equipped with an improved version of the BM 900 microscope, an enhanced illumination system and traditional high-precision mechanics, the BI 900 is the ideal successor to the BM 900. The BI 900 slit lamp combines simplicity and reliability in a modern system which offers integrated digital imaging as an option.

We are excited to continue into our sixth year of Mackool Online CME. With the generous support of several ophthalmic companies, I am honored to have our viewers join me in the operating room as I demonstrate the technology and techniques that I have found to be most valuable, and that I hope are helpful to many of my colleagues. We continue to edit the videos only to either change camera perspective or to reduce down time – allowing you to observe every step of the procedure.

As before, one new surgical video will be released monthly, and physicians may earn CME credits or just observe the case. New viewers are able to obtain additional CME credit by reviewing previous videos that are located in our archives.

I thank the many surgeons who have told us that they have found our CME program to be interesting and instructive; I appreciate your comments, suggestions and questions. Thanks again for joining us on Mackool Online CME.

Richard J. Mackool, MD

---

**Episode 62:**

**“Traumatic Subluxated Cataract”**

Surgical Video by:

Richard J. Mackool, MD

**Video Overview:**

Blunt trauma has caused a subluxated cataract with vitreous prolapse. Phacoemulsification with insertion of 2 capsule tension rings, one of them sutured to the sclera, are demonstrated.

**CME Accredited Surgical Training Videos Now Available Online: [www.MackoolOnlineCME.com](http://www.MackoolOnlineCME.com)**

Richard Mackool, MD, a world renowned anterior segment ophthalmic microsurgeon, has assembled a web-based video collection of surgical cases that encompass both routine and challenging cases, demonstrating both familiar and potentially unfamiliar surgical techniques using a variety of instrumentation and settings.

This educational activity aims to present a series of Dr. Mackool’s surgical videos, carefully selected to address the specific learning objectives of this activity, with the goal of making surgical training available as needed online for surgeons motivated to improve or expand their surgical repertoire.

**Learning Objective**

*After completion of this educational activity, participants should be able to:*

- present complex techniques that can be used to remove a dislocated cataract while preserving the lens capsule for IOL implantation.

**Credit Designation Statement** - Amedco designates this enduring material activity for a maximum of .25 AMA PRA Category 1 Credits™. Physicians should claim only the credit commensurate with the extent of their participation in the activity.
ALADDIN-M
BIOMETER / TOPOGRAPHER
Expand Your Practice with the Aladdin-M

- Axial length, refractive error and corneal power trend reports
- Establish baseline metrics and track change over time
- Corneal topography with aberation maps and white-to-white measurement

pg. 9
WE’RE SEEING AMAZING RESULTS.
AND SO ARE THEY.

At the Foundation Fighting Blindness our mission is everybody’s vision. Our work shines a light on the darkness of inherited retinal diseases (IRDs).

We’re the world’s leading organization searching for treatments and cures. We need your help to fuel the discovery of innovations that will illuminate the future for so many. We have robust disease information, a national network of local chapters and support groups, local educational events, and our My Retina Tracker® Registry to help keep your patients connected with clinical and research advancements.

Help accelerate our mission by donating at ECPs4Cures.org.

FightingBlindness.org
**EFC-2600 Fundus Camera**

The EFC-2600 totally revolutionized the retinal image industry. Fully automatic, the operator does not need to worry about finding the retinal image through the pupil, centering, focus or about anything else. With the simple press of the start button, the EFC-2600 makes retinal imaging as simple as a child's game.

- Fully Automatic
- Mosaic
- 45-100 Degrees Visual Field
- Non-mydiatic
- Posterior and Anterior Segment

**ETN-1800 Non-Contact Tonomer**

With fully automated 3D eyetracking and soft air puff, patients can receive a quick IOP measurement while under total comfort. The ETN-1800 includes a user friendly touch screen for simple system operation of IOP measurement. With the device, IOP measurement can be quickly taken by touching the center of the pupil on the screen and pressing the “START” soft key. The measurement report is then printed out automatically.

**Eyer NM Top Portable Retinal Camera**

Have a desktop quality fundus at your fingertips. The Eyer takes high quality retina images comparable to a desktop fundus at a fraction of the price. Built with 12 mega-pixels and enhanced camera features, such as mosaic capabilities and iCloud storage, the Eyer is the ideal tool for tele-medicine practice.

- Mosaic
- 12 Mega-pixels
- Non Mydiatic
- Auto Focus
- AI Ready

**Visionare Refraction Units**

The Visionare refraction unit collection is a European line, fusing quality, design and comfort all in one. It features a spacious, safe and flexible design including a comfortable examination chair. The Visionare refraction units boast many features relative to other refraction units, including its customizable design.

The Visionare Units provide a world class patient experience.

**Emerald Family Slit Lamps**

Fully made in Japan, the complete redesign of our slit lamp family will take your practice to the next level. Our new slit lamps, equipped with a high definition optical system, provide sharpened clear images through its high-transparency glass material. The new line offers a broad selection of different models with the option of Halogen to LED.

- LED
- Halogen
- Video Imaging
- Zoom
Our understanding of Dry Eye & MGD has advanced, yet compliance remains our greatest impediment to successful patient outcomes. “At home” therapy options are somewhat helpful, but largely inconvenient. Dry Eye patients need precise heat and lid hygiene in one simple, convenient and affordable OTC option. I am thrilled to partner with ThermaMEDx on an innovative solution to this problem.

Visit ThermaMEDx.com to Learn About Dry Eye Innovation
