Dear Doctor,
Review of Ophthalmology is pleased to offer you this preview of many exciting new products now available in the ophthalmic marketplace. Here, you’ll learn about innovative new medications, diagnostic instruments, corrective lens options, in-office laboratory equipment and many other products. There are two ways to obtain more information on a particular product:

2. Circle the corresponding number on the enclosed reader service card for each product of interest. Fill in your name and address, and return the postcard-paid card to us. Educational materials will be sent directly to you by the individual companies.

* Also, be sure to watch for Daily Product Showcase E-blast deployments, highlighting these listings later this month.

Requesting product information is now fast and easy! Go to www.reviewofophthalmology.com, click Additional Publications, Product Guide digital edition and follow the prompts to request product information.
iCare IC100
The objective tonometer
+ No drops, air, or calibration needed
+ Consistent & accurate readings
+ Single use probes to exceed infection control guidelines

iCare IC200
200 degrees of tonometry
+ Supine, reclined & seated positions
+ No corneal disruptions
+ Suitable for every patient
+ Single use probes to exceed infection control guidelines

iCare HOME2
24-hour at home tonometry
+ NEW! Supine, reclined & seated positions
+ NEW! New smart light guide for easy positioning
+ NEW! Interactive display screen
+ NEW! Comprehensive IOP reports

iCare DRSplus
Automated TrueColor retinal imaging
+ TrueColor confocal imaging
+ Ultra-high resolution
+ Fast image acquisition (16s per eye)
+ No dilation (2.5mm pupil size)

iCare EIDON
Ultra-high resolution retinal imaging
+ Ultra-Widefield up to 200°
+ Rich details from center to periphery
+ Clear imaging through media opacities
+ No dilation (2.5mm pupil size)

iCare COMPASS
Automated perimeter with retinal tracking
+ Unique retinal tracking
+ TrueColor confocal retinal image acquired
+ No trial lens

OPHTHALMIC
Product Guide

**BQ 900® LED Slit Lamp**
Fully integrated imaging solution
Choose the BQ 900 LED for advanced microscopy. The BQ 900 is powered by a long-lasting LED diode that offers exceptional detail and depth of field. It is the ultimate slit lamp due to its flexible modular design. The Imaging Module 910 offers a fully integrated imaging solution with unique features and technology. Other optional accessories include Teaching Scope, Inclined Eyepieces, Yellow Filter, Stereo Variator, and Beam Splitter.

**Imaging Module 910**
Outstanding images with a click of a button
An attachment for the BQ 900 slit lamp, the Imaging Module 910’s new camera sensor and superb optics provide outstanding image quality and light. Auto-exposure and automatic aperture control guarantee great illumination and images at all times. Quickly and easily transfer images to EMR—simple to use in any office and work flow.

**Reliance FX-920®**
The standard for chair design
The FX-920 sets the standard for design while retaining the core value of all Reliance products - rugged durability. All surfaces of the chair are designed to support a patient’s entire weight. Ergonomic full power tilt is efficient for the practitioner and comfortable for the patient. A full complement of controls is available on both sides of the chair, while the detached dual footswitch adds flexibility.

**LENSTAR® APS Optical Biometer**
Advanced biometry—better outcomes
The LENSTAR LS 900 with Automated Positioning is all you need for faster, more efficient biometry. Its easy mechanical tracking minimizes user delay and error, delivering more reliable results and a more comfortable patient experience. The dual zone keratometry with 32 measurement points provide precise K values, essential for planning toric lens implantation. With its integrated Olsen and Barrett formulas, as well as exclusive availability of the Hill-RBF Method 3.0 for IOL calculation, the LENSTAR provides the user with the best possible IOL prediction.

**Octopus 600®**
Early diagnosis and standard white-on-white perimetry in one device
The Octopus 600, with EyeSuite Progression Platform, extends Haag-Streit’s product range of visual field analyzers, combining the Pulsar method for early glaucoma detection and standard White/White perimetry for long term follow-up in one compact and stand-alone device. Unique fixation control for blinking, pupil position, darting and forehead contact, yields more reliable results, and with our Tendency Oriented Perimetry (TOP strategy) thresholds are performed in under 3 minutes.

**Octopus 900®**
Versatility PLUS connectivity!
The Octopus 900, with EyeSuite Progression Platform, is the most versatile perimeter available. The Octopus 900 features more options for reliable testing, including: static White/White, Blue/Yellow, Red/White, Flicker, Low Vision and computer-assisted true Goldmann Kinetic, TOP Strategy for thresholds in under 3 minutes and our unique fixation control. EyeSuite, the industry’s most advanced software for progression analysis, includes the first perimetric analysis to combine structure and function with real-time interactive access to all perimetric data with easy networking and free viewing stations.
Circle No. 17
**Phoroptor® VRx**
Digital Refraction System
A premium digital refraction experience at a safe distance.

Featuring the thinnest, most compact design, incredibly fast lens exchanges, motorized prisms, split cylinder lenses, and ultra-quiet operation, Phoroptor® VRx sets new standards in refraction. The ergonomic keypad features a multi-function control knob with unmatched feel and versatility, while the intuitive touchscreen interface has all the pre-programmed and programmable tests you’ll need.

Phoroptor VRx provides a premium digital refraction experience at a safe distance, now from across the room or across the Internet. Phoroptor VRx is the only system that connects to all major brands of pretest devices and EMR platforms.

Designed and assembled in the USA

Circle No. 18
**ClearChart® 4**
Digital Acuity Systems
Pixel-perfect and purpose-built.

The family of ClearChart® Digital Acuity Systems are elegant, all-in-one, simple-to-use, and uniquely designed to meet all of your acuity testing needs with a wide selection of optotypes, and other special test charts.

The ClearChart family all feature a 24 inch, high resolution, LED backlit display that are lightweight, cool running and long-lasting. The ClearChart® 4X Enhanced Digital Acuity System, and the ClearChart® 4P Polarized Digital Acuity System are now available with LEA SYMBOLS® and LEA NUMBERS®. The intuitive user interface provides the best user experience of any digital acuity chart.

Circle No. 19
**Ocular Response Analyzer® G3**
Corneal Hysteresis: Measure Beyond Pressure.

Provide a more confident glaucoma risk assessment and a more personalized treatment approach.

Ocular Response Analyzer® is the only device that measures Corneal Hysteresis, a superior predictor of glaucoma progression. Corneal Hysteresis has consistently shown to be a more powerful predictor of, and strongly associated with, glaucoma progression, more so than key risk factors such as IOP and CCT.

Designed and assembled in the USA

---

Circle No. 20
**Reichert® 7CR**
Non-Contact Tonometer
A better pressure measurement with Corneal Response Technology®.

In 1972, Reichert® invented the non-contact tonometer (NCT), and continues to innovate tonometry with the clinically advanced and easy-to-use Reichert® 7CR.

Using patented Corneal Response Technology® which takes corneal biomechanics into account, Reichert 7CR provides Corneal Compensated IOP (IOPcc), a better pressure measurement.

Designed and assembled in the USA

Circle No. 21
**Tono-Pen AVIA®**
Handheld Tonometer
Reichert® Tono-Pen® has been the trusted choice of clinicians for over 30 years.

Tono-Pen® helps to provide essential care while keeping your patients and staff protected. Tono-Pen AVIA® applation tonometer now with Quick-Tap® Measurement Mode is ready-to-use, calibration-free, and accurate – with more confidence in fewer measurements.

Tono-Pen is less sensitive to corneal centration, ensuring fast and accurate IOP measurements with minimal training. Protect your Tono-Pen and patients with genuine, FDA cleared Reichert® Ocu-Film®+ Tip Covers.

Designed and assembled in the USA

---

Circle No. 22
**Ocu-Film+ Tip Covers**
Tono-Pen® Tip Covers
Protect your Tono-Pen Handheld Tonometer and your patients.

Genuine blue Reichert® Ocu-Film® Plus Tip Covers protect your Tono-Pen® Tonometers from dust and fluids, and help protect patients from the risk of cross contamination. Ocu-Film+ Tip Covers are single-use, sanitized, and easy-to-apply. Ocu-Film+ Tip Covers are FDA cleared and the only Reichert® approved tip covers for use with Tono-Pen Tonometers. Ocu-Film+ Tip Covers are available individually packaged in boxes of 150 or bulk packs of 600.
Oasis TEARS Hypochlorous®

*Daily Lid & Lash Hygiene*

- Gentle, nontoxic and natural antimicrobial formula
- Misting spray
- Reduces Eyelid bioburden
- pH neutral

MYAH

BIOMETER + CORNEAL TOPOGRAPHER

Build your pediatric myopia practice with MYAH.

- Axial length metrics and trend reports aid in assessment of myopic risk factors
- Corneal topography and contact lens fitting software supports specialty lens fitting
- Easy to use with patient-friendly scan acquisition

CHRONOS

AUTOMATED BINOCULAR REFRACTION SYSTEM

Now is the time to maximize patient throughput.

- Combines binocular autorefraction, keratometry and subjective refraction in a single device
- SightPilot® guided refraction software directs operators through the refraction process with a simple user interface
- Seamless EMR integration gives you all refractive data at start of exam

MAESTRO2

ROBOTIC OCT + FUNDUS CAMERA

Affordable and Easy-to-Use OCT

- Single touch automated capture
- 12x9mm 3D wide scan captures macula and optic disc and includes the Hood Report for Glaucoma
- Space saving design fits into any practice setting

**YPA-2100 DIGITAL REFRACTOR BY YEASN**

- **YPA-2100**
  Simplicity, imbued with precision. Every detail is modernized, integrated into a seemingly simple but excellent and precise design.

- **Tablet Touch Control**
  Connected with control terminal through built-in WIFI, supporting multi-touch/gesture control.

- **Real-time Graphical User Interface**
  Minimum training time and cost, fast and easy operation.

- **Ultrathin Design**
  Ultrathin body with maximum thickness of 92 mm.

- **Connectivity**
  EMR ready and easily connects to most popular auto refractors and Lensmeters.

Stop paying more for less!

**徇私**
**VISION-S 700 REFRACTION STATION**
> Space saver and game changer with speed and accuracy built on exclusive innovation

- Standalone, ultra-compact tabletop subjective refraction unit
- Patented Digital Infinite Refraction method and exclusive optical modules
- High degree of accuracy with rapid 3-minute refractions
- Concentrates a complete refraction experience into an immersive station
- Unique refraction experience that can potentially drive traffic, differentiate the practice, facilitate the discussions about complimentary pairs, and transform the overall business potential

**VISION-R 700 REFRACTION SYSTEM**
> Accelerate refraction without compromising on accuracy

- Innovative technology with the exclusive optical module
- Adjust the cylinder and axis simultaneously while compensating for the sphere
- Automated Smart programs and algorithms to guide the ECP
- Silent and smooth lens changes enhance the patient experience

**WAM 800 WAVEFRONT ABERROMETER**
> Fully-automatic for complete anterior chamber analysis and visual need assessment

- Fast, effective, and space-saving
- 7 detailed tests in 90 seconds; both eyes
- Glaucoma screening and monitoring, keratoconus detection, and cataract screening
- Performance evaluation with eye strain and near-vision assessment and vision simulation

**CORNEA 550 CORNEAL TOPOGRAPHER**
> Specially designed for contact lens fitting and dry eye analysis

- High-resolution color camera
- Wide array of graphic representations
- Advanced qualitative and quantitative tear film assessment
- Dynamic and static capture pupillometry
- Independent screen to facilitate the sharing of results
- Newly-enhanced AnaEyes software to provide one graphical summary report

**AKR 750 AUTO KERATO-REFRACTOMETER**
> Fast, accurate and fully automatic; an ideal solution for delegating patient measurement

- One-touch button measuring process for both eyes
- Ultra-precise measurement for even small diameter pupils
- Auto and manual measurement modes available
- Wide range of measures including peripheral keratometry with eccentricity
- Large 7.5” tilting screen for easy operation
- Automatic data transfer to APH 550

**OCT 500 ADVANCED ROBOTIC OCT**
> Optical coherence tomography with integrated fundus imaging

- Supports DCT technology ready for delegation
- Fully-automatic operation with follow-up scan function
- True-color fundus photography
- Extended range of analysis function for the pupil and the macula
- Compact and space-saving design
ANTERION® Imaging App ~ Now Available in the U.S.

ANTERION is a swept-source OCT that delivers high-resolution visualization of the entire anterior segment.

INTRODUCING
PiCTOR Prestige

• Powerful small pupil capability allows imaging through pupils ~3 mm
• Get a full day of imaging on just one charge
• Onboard Image Quality Analysis ensures you never retake an image
• Lifetime access to the Prestige Studio offers functionality such as filters, montaging, and report generation
• Qualify for incentives like ADA IRS Tax credit and Section 179 Deduction
• New Special Pricing: $7595

Vantage Plus

• Lightweight yet durable
• Remarkably balanced
• Long-wearing comfort
• Efficient, high-contrast LED

Encourage your patients to follow a daily eye hygiene regimen with Bruder products

Provide the #1 doctor recommended dry eye products to your patients between office visits.
